

CourierGateway

It's Finally Here!

The easiest, most user-friendly solution that allows you to work with multiple couriers, all within One, Simple Account.

Contact: ryan.wady@couriergateway.com

CourierGateway is a cloud based platform, focusing on the B2B and B2C markets. We offer customers the ability to work with multiple couriers under one simple, centralized account. We save our customers time and money while increasing efficiency, resulting in increased profit margins.

Our solution, our people, our thinking is... outside the box.

Save Money

over 30%

Through deep volume discounts from the leading National and International Couriers.

- Lowest price each time
- Late shipment alerts and refund management
- Supplier management
- **No set up fees**
- **No monthly maintenance fees**
- **No hidden costs**
- **Pay as you go**

Save Time

over 50%

Through one, centralized, parcel shipping hub we save you time from having to manage multiple websites and multiple accounts. Eliminate the need for RFP's, you can now see the best rates, every day, for each shipment.

- Multi-courier price comparisons
- Enter orders
- Lable printing
- Track shipments
- Make payments
- Manage refunds
- Custom analytics
- Intergation with your internal systems

CourierGateway

Did You Know?

Your shipping staff could save a minimum of 3 hours per day from eliminating these additional steps when working with multiple websites?

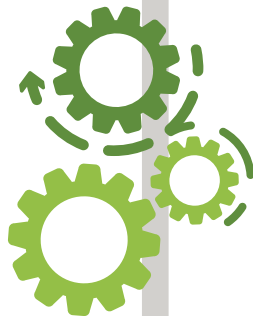

Contact: +1.780.975.5989

Increase Efficiency

over 50%

Through streamlining your entire administration and accounting processes.

- Eliminate stacks of invoices for reconciliation
- Eliminate time wasted by managing and paying multiple accounts
- Did you know that your admin / accounting staff could save up to 2 full work days per week (depending on the volume) from eliminating this headache from their daily workload?

Increase Visibility

up to 100%

Through our custom Analytics & Integrations.

- See all activity, for all courier shipments, worldwide, at a glance
- Manage your entire supply chain from inbound supplier shipments to the final delivery to your end customer
- Add your suppliers to your account and be guaranteed you're getting the best price every time, tracking every move
- You can now; more efficiently manage your corporate strategy with all of your data, at your fingertips!
